In addition, we also support social science and humanities academic research and the research activities of the Suntory Foundation for Life Sciences. Through these activities we aim to foster international human resources capable of leading the next generation.

Promoting Arts, Culture and Academics

**Suntory Foundation for the Arts**

Suntory Museum of Art opened in 1961 and Torii Music Foundation established in 1969 as a 70th anniversary commemoration of the founding of Suntory (name changed to Suntory Music Foundation in 1978). Two activities that have been carried out in the field of arts for about half a century was merged as a 110th anniversary commemoration activity and renew them to suit the 21st century in 2009 as Suntory Foundation for Arts.

Since April 2012, operation of Suntory Hall was added to expand its field and aims to contribute to further disseminate and develop music and arts in Japan through various unique activities. Roughly one million customers have visited the Suntory Museum of Art and Suntory Hall in 2016.

In 2019, the Suntory Foundation for the Arts (originally Torii Music Foundation) celebrates its 50th anniversary. With gratitude for 50 years of enormous support and cooperation, this year, which serves as the first step to the next 50 years, we are developing memorial projects appropriate for the new age in the fields of art and music with the theme “Nourish the spirit, cultivate the future.”

**Suntory Museum of Art -- Art Revised, Beauty Revealed**

Guided by the theme “Art in Life” since its founding in 1961, the museum’s current collection encompasses over 3,000 works of painting, lacquer ware, pottery, glass, and textile, including one national treasure and 15 important cultural properties. With no permanent exhibition, the museum is centered on its special exhibitions. The museum moved to Tokyo Midtown in Roppongi in March 2007. Based on the museum message of “Art Revised, Beauty Revealed”, we are also involved in passing down a sense of art of the Japanese people to future generations through larger and more diverse exhibitions with a total of approximately 3,000 items that include one National Treasure and 15 Important Cultural Properties. The museum, which was designed by architect Kengo Kuma with the theme of a living room in the middle of the city, provides facilities such as shops, cafes, halls that hold a wide range of programs, and tea rooms.
Special Exhibitions Unique to Suntory Museum of Art

In 2018, five exhibitions unique to Suntory Museum of Art were held which were all popular. These include "Kan’ei Elegance Edo-Period Court Culture and Enshū, Ninsei, and Tan’yū," which provided an introduction to trends of sophisticated culture at the beginning of the 17th century, "The Glass that Gallé Adored—Glass from the Qing Imperial Collection," an exhibition that compared the beauty of Qing Dynasty Imperial Glass, known for its profound, excellent sculpting and polishing, with works of Emile Gallé, "The Ryukyu Kingdom: A Treasure Chest of Beauty," which featured important pieces of Ryukyu art, including pieces passed down by the Ryukyu Kingdom, "Daigoji Temple: A Shingon Esoteric Buddhist Universe in Kyoto," which placed the spotlight on the greatest treasures from esoteric Buddhism, and "In the Country of Fans, Japan," an overview of the world of fans that were invented in Japan in terms of a broad range of periods and perspectives.

We will continue with efforts to make Japanese as well as foreign museum visitors familiar with Japanese culture, such as making audio guides in Japanese and English available for rent in Japanese for all exhibitions and performing tea ceremonies on designated days in the museum tea ceremony room Genchoan.

Suntory Hall — Aiming for the Most Beautiful Sound in the World

Opened in 1986 as Tokyo’s first dedicated concert hall. Performances by leading musicians from Japan and overseas are conducted in two halls, Main Hall with a vineyard style, praised as “a jewel box of sound” by great composer Karajan, and Blue Rose (Small Hall) which the hall prides. More than approximately 550 lectures are seen by roughly 600,000 people.
### Promoting Universal Design Through Large-scale Renovation after 30 Years Since Opening

Suntory hall celebrated its 30th anniversary on October 12, 2016 before closing between February and August 2017 for large-scale renovations. While valuing the mission to “pursue the world’s most beautiful sounds”, we are promoting universal design to offer more entrances able to approach concert seats without traversing stairways so that everyone can enjoy performances regardless of mobility while also adding a ramp to easily move from the foyer to the large first floor hall as well as additional multi-purpose restrooms. Suntory Hall is still moments away from opening after these renovations, but a concert with an evacuation drill was held with the participation of Suntory Group employees. We aim to ensure Suntory Hall has the highest level of safety management in the world.

Performances Full of Originality

Suntory Hall has been holding original performances since its opening as a base for transmitting musical information. Since 1987, our Summer Festival, which features contemporary music, and Chamber Music Garden, an event held annually in June started in 2011 when Suntory Hall celebrated its 25th anniversary, receive international attention.

Music Division — Innovative Activities to Promote Music

We are involved in a variety of projects designed to promote Western music in Japan, including awarding the Suntory Music Award to individuals and organizations that have made outstanding achievements in the field of music as well as the Keizou Saji Prize awarded for outstanding challenging performances and the Yasushi Akutagawa Suntory for Music Composition given to up-and-coming Japanese composers with superior works. We also introduce “Works of Japanese Composers” and provide grants for concerts. Since 2014, Suntory has also been aiming to conserve excellent stringed instrument artifacts which are cultural heritage assets as well as cultivate new musicians through lending activities. The Suntory Foundation for Arts lends its instruments to junior high and senior high school students and has begun a new program to lend instruments to up-and-coming musicians.

Vienna Philharmonic & Suntory Music Aid Fund

The Suntory Foundation for the Arts engages in activities with Suntory Holdings Ltd. for the Vienna Philharmonic & Suntory Music Aid Fund for the purpose of invigorating disaster afflicted areas as well as the rest of Japan. We are expanding many of these activities from the aid given to music activities provided together with the Vienna Philharmonic Orchestra and Concerts for Children in disaster affected areas to mentoring of junior orchestras and musical remembrances. We held a remembrance concert in 2017 with the Vienna Philharmonic as part of our support toward recovery after the Kumamoto Earthquake.

To Create Harmony with Society: Cultural and Social Contribution

Social Welfare

In the spirit of our founder, Shinjiro Torii, who called for "Giving back to society", we have maintained his principle by returning profits to society. We have been particularly active when it comes to charitable and social welfare activities directed toward people from less fortunate circumstances. Suntory Group has been ever mindful of changing social needs in the social contribution activities it has continued carrying out to this day.

Support through the Social Welfare Organization

Social Welfare Organization Hojukai

Suntory founder Shinjiro Torii began the Hojukai in 1921 with the establishment of the "Imamiya Dispensary" free clinic in the Airin district of Osaka City to assist people living in financial hardship based on his strong belief in social contribution. The Hojukai was named by combining one Japanese kanji character of Shinjiro Torii's wife's name and one Japanese kanji character from our Kotobukiya company name from that time. During the turmoil after the Second World War, accommodation facility was provided for victims of war, people that returned from overseas and people that did not have a place to go, which are currently used as dorms for mother and child, special elderly nursing home and nursery schools. Hojukai continued activities as a social welfare organization and it operates Takadonoen (special care facility for seniors established in 1974), Domyoji Takadonoen (a general-purpose welfare facility established in 2008), the Tsubomi Nursery School (1975), and the West Asahi-ku Community General Support Center (commissioned by Osaka City in April 2011). To respond to the current needs, Suntory has been putting efforts in at-home nursing care services such as home-visit nursing care, outpatient nursing care, and in-home long-term nursing care services. In the spring of 2017, Tsubomi Nursery School moved to a new premise with the aim of an even more unique and comfortable facility as well as a nursery school that nurtures a wealth of sensibility.

Donating Suntory Products to Children Homes with the Cooperation of Food Bank Activities

The Suntory Group has donated approximately 72,000 cases of food and drinks to entities such as orphanages, welfare institutes, community centers, and disaster affected areas since 2010 through the Second Harvest non-profit organization that engages in Food Bank activities. The products that are donated are given under the condition that they have the same quality as the products sold commercially. We also conduct the same level or quality assurance, customer service, and all other operations for those products as the products sold commercially. This program started in Tokyo Metropolitan area in 2010 and was later expanded to include Okinawa in 2013. In the future, we will continue this food bank activity to deliver the appropriate amount of food as necessary.
Engaging in Charitable and Voluntary Activities

Charitable activities
Suntory Group will continue to conduct community contribution activities through charities. We will also actively participate in charitable activities such as summer and year-end charity campaigns at each business establishment throughout Japan.

Supporting Community Building through Charity

Suntory Ladies Open Golf Tournament
Entry fees to the amateur-professional charity tournament, money from charity corner sales, etc. from the Suntory Ladies Open Golf Tournament, which was started in 1990, have been used to help earthquake disaster recovery efforts in Kobe City and help build safe and secure towns from 1995 when the Great Hanshin Earthquake occurred until 2010.
Since 2011, we have donated fire-fighting vehicles and other equipment to Natori City and Sendai City in Miyagi Prefecture as support for disaster-affected areas that were severely damaged by the Great East Japan Earthquake. Since 2016, we have been providing recovery support to areas affected by the Kumamoto Earthquake and the Great East Japan Earthquake.

Suntory Dream Match 2018

Developing the Next Generation

Suntory Group is engaged in a variety of activities related to music, art, sports and experiencing nature that are designed to support the healthy growth and development of the children who will be responsible for the future.

Supporting the Development of the Next Generation through Various Activities

Suntory Group provides children with opportunities to meet top athletes and come into contact with genuine works in fields such as sports, music, art, and the natural environment. As the importance of educating the youth is on the rise due to the decline in the children, we are strengthening the support to form the characters and individuality of children.

■ Suntory Hall—Nurturing Next-generation Performers and Audiences

With Suntory Hall, we plan and offer various programs to develop the next generation, hoping children will experience a thrill listening to live music performed by leading musicians and taking classical music into their lives. We have been holding "Concerts for Children" which is Japan's first regular orchestra concerts for children and "Minato-city & Suntory Hall Enjoy! Music Project" for fourth grade elementary school students in Minato-city from 2014. We also host other programs such as "Master Class by Principals of Vienna Philharmonic Orchestra," in which members of Vienna Philharmonic Orchestra teach young musicians directly.

Minato-city & Suntory Hall Enjoy! Music Project

Minato-city and Suntory Hall have continued the on-going hands-on arts program focused mainly on music since 2014 for local fourth grade elementary school students. Internationally recognized conductor Kazushi Ono was involved with the planning for the workshop and performance under the theme "Joy of Vibrant Voices" in 2018. In the two-hour workshop held at each elementary school, a soprano, alto, tenor and bass from the Suntory Hall Opera Academy performed. The workshop demonstrated the difference in the range of these voices and the vocal resonance (B-flat), sung the Japanese song Momiji, and provided guidance to the source material key to Beethoven's 9th before the concert in February. On Thursday, February 22, 2018, roughly 1,400 fourth grade students from Minato elementary schools gathered at Suntory hall to watch the Tokyo Metropolitan Symphony Orchestra led by conductor Kazushi Ono.

**Providing Free Beverages When Disasters Strike**

Suntory Foods Ltd. has developed and is furthering the installation of emergency beverage vending machines. This system normally sells beverages from vending machines in peace times but will provide them for free during emergencies such as when disasters strike. Beverages can be easily accessed even if the power goes out. Many people used this system after the Great East Japan Earthquake that struck in March of 2011. We are furthering the installation on premises with focus on public facilities and hospitals. We plan to keep actively installing these types of vending machines in the future.

Coexisting with Communities around Our Plants

The Suntory Group's main plants are making efforts to engage in dialogue with local residents. We also work to provide venues for interacting with the local community through measures such as opening parks and trails created at our plants. We have third parties conduct environmental impact assessments when we construct new plants and work to get the understanding of the people who neighbor the site. We also make efforts to harmonize the plants with nature by preserving the sites' biodiversity and pursuing greening initiatives on their grounds.

Promoting Greening of Plants

Suntory Group’s plants consider biodiversity and promote greening that is in harmony with local environment, receiving awards in various locations as model green plants.

Employee Volunteer Activities

■ Basic policy

The Suntory Group conducts a wide range of social contribution activities based on its spirit of giving back to society, but a relationship between society and every Group employee is also important. We actively suggest that employees use time created through work style reform promoted throughout the entire Group to participate in employee volunteer activities to discover new value and serve as opportunities for individual growth.

■ Providing Opportunities to Volunteer

We have adopted the Volunteer Web (provided by the Nippon Philanthropy Association) activity introduction and application system. In addition, the Let’s Cut Fabric and Picture Book Delivery international volunteer programs have been bundled into a package with the cooperation of NPOs, which has been published on the Volunteer Web and successfully been held in areas requested by our employees. Furthermore, we established the Volunteer Leave Program as part of this support system.

■ 2019 Initiative Volunteer Months and Launch of Volunteer Information Website

The period from April 30 to June 30 was specified as “Volunteer Months.” During this period, we held volunteer activities in Japan and overseas and provided opportunities to make employees want to participate as volunteers. During that period, we have expanded efforts including Suntory Group’s sustainability activities, such as the awarding of the Suntory Prize for Community Cultural Activities and the Hojukai, the “Beach Cleanup Activity” that focuses on the ocean plastic problem, which is a social issue, and programs including collaboration programs with Group companies. Our overseas Group companies are also strengthening activities simultaneously.

In April 2019, we launches the internal site Suntory Volunteers. In addition to volunteer information, we post information that allows users to learn about actual volunteering experience through formats such as “Volunteer Activity Diary,” “Experience Reports,” and “Volunteer Roundtable” based on the catchphrase “Making use of one’s own abilities outside of work is enriching.”

We also contributed to greenification business after the Great East Japan Earthquake, starting with donations to the Tokyo Green Project in fiscal 2010 as one of our activities. In 2012 and 2015, we received a gratitude letter from the Minister of Agriculture, Forestry, and Fisheries. In addition, because disasters have occurred in various places each year, we have been working with local children since the Great East Japan Earthquake occurred in March 11, 2011 mainly on tree-planting activities to restore the greenery of each disaster-stricken area.

Supporting the Revitalization of Communities with Flowers -- Suntory Flowers Ltd.

Suntory Flowers is providing flowers for areas such as parks to allow even more people to experience a life in a community with flowers. The Red Flower Project has expanded throughout Japan since 2012 to play a role in revitalizing communities by planting flowers in parks and public facilities in each area of Japan under the slogan, “Revitalizing Japan with Red Flowers!”

We donated Surfinia Red flowers to organization in each community in Japan. From 2015, we have expanded the scope of our activities even further to engage in “Big Flower Project”. In addition, we will continue our activities from 2019 to make as many people smile as possible through the power of flowers, focusing on reconstruction assistance in Tohoku and Kumamoto as part of the Tomorrow’s Flowers Project.
