

Suntory Holdings Recognized as CDP Supplier Engagement Leader 2025

Tokyo, Japan (May 20, 2026) — Suntory Holdings proudly announced that it has been recognized as a Supplier Engagement Leader in the Supplier Engagement Assessment conducted by CDP, a global non-profit organization that operates the world’s leading independent environmental disclosure system for companies, capital markets, cities, states and regions to manage their environmental impacts. This recognition is the highest rating among assessed companies and marks the sixth consecutive year for Suntory Group to receive this honor.

In addition to its corporate-level assessment, CDP also conducts theme-based assessments across environmental issues. In December 2025, Suntory Holdings announced that it was included on CDP’s ‘2025 A List’ for both Climate Change and Water Security. For Suntory Group, this marked the seventh consecutive year of being listed on the Climate Change A List, and the tenth consecutive year – which represents the longest record among Japanese companies – to be recognized on the Water Security A List (see press release [here](#)).

CDP’s annual Supplier Engagement Assessment (SEA) – formerly known as CDP’s Supplier Engagement Rating – evaluates how effectively organizations engage their supply chains

on climate issues. Based on the responses to CDP's climate change questionnaire, SEA assesses five categories: governance and business strategy, targets, Scope 3 emissions, risk management processes and supplier engagement.

To achieve net zero greenhouse gas (GHG) emissions across its entire value chain by 2050, Suntory Group aims to reduce GHG emissions in its direct operations by 50%* and across the entire value chain by 30%* by 2030, and promotes a wide range of initiatives across its global business. The Group believes that its various efforts to address climate change, including its GHG emissions reduction targets, the gathering of Scope 3 emissions data, and collaboration with suppliers, have contributed to its recognition as a Supplier Engagement Leader.

Suntory Group's purpose is to inspire the brilliance of life, by creating rich experiences for people, in harmony with nature. Since its founding, the Group has been committed to achieving a sustainable society. As a corporation sustained by the gifts of nature and water, Suntory Group will continue to promote sustainability management, preserve biodiversity, reduce GHG emissions through the use of renewable energy and green hydrogen, and realize a sustainable society.
